

FIPP® Class of 2016

Fellow of Interventional Pain Practice®

The Fellow of Interventional Pain Practice® (FIPP®) certification was introduced by the World Institute of Pain® (WIP) in 2001 to certify qualified physicians in the field of pain medicine who perform interventional techniques. The certification process employs practice-based assessment criteria to encourage and formally recognize physicians who meet the knowledge and skill requirements of the WIP Board of Examination and to serve the public by encouraging quality patient care in the practice of pain medicine. As of December 2016, WIP has certified 970 physicians, representing 58 member countries.
